

4B TESTING EQUIPMENTS PVT. LTD.

Product Catalogue

Product: GSM Round Cutter

Description:

GSM Round Cutter is a precision laboratory instrument used to cut a 100 cm² circular sample from paper, paperboard, corrugated board, fabric, non-woven textiles, plastic films and similar sheet materials for accurate GSM determination. It features a heavy-duty aluminum body and hardened stainless-steel blades for clean, repeatable cuts.

Key Features

- Heavy-duty aluminum body
- 100 cm² precision sample area
- Hardened stainless-steel blades
- Easy manual operation
- Accurate, burr-free cutting
- Durable and corrosion resistant

Applications

Paper, Packaging, Corrugated Box, Textile, Non-woven, Plastic Film, QC Labs and Research Institutes.

Technical Specifications

Sample Area: 100 cm²

Cutting Diameter: 112.8 mm

Operation: Manual
